

Presented by Daniel Jones, AdvDipNat DipBotMed  
(Co-author of popular *Alfred Jacka's Prescribing Strategies*)

# Celloids® Essential & Advanced Prescribing – 2 DAY WORKSHOP

**REGISTER NOW!**

## Clinical success using Celloids® mineral therapy

This two-day event is an excellent opportunity for students and experienced practitioners to attend a highly informative workshop on essential and advanced prescribing presented by Dan Jones, who has over 27 years of clinical experience. The workshop will include treatment strategies, 'clinical pearls' and encourage case study discussion.

This workshop will also enable you to confidently prescribe mineral therapy as a standalone therapy and learn how these can be used adjunctively with herbs to support a range of conditions.

Dan will share many great anecdotes and case studies to support your confidence in mineral therapy, and will provide you with valuable tips and prescribing techniques.

## Learning objectives

- Gain confidence in dispensing a range of modalities that complement each other and how these can be used to develop a personalised prescribing style for better clinical outcomes
- Acquire the ability to manage challenging conditions
- Discover the role of mineral therapy when used as an adjunct to herbs to improve patient outcomes and as a standalone modality
- Identify the key characteristics of personalised prescribing
- Gain confidence in interpreting presenting body signs and symptoms
- Learn about the different dosing strategies for patients with acute and chronic conditions.

## Daniel Jones

ADVDPINAT DIPBOTMED

Daniel is a dynamic and entertaining presenter with over 27 years naturopathic experience and has lectured and supervised clinic hours at a leading naturopathic college. Jones co-authored the respected textbook, *Alfred Jacka's Prescribing Strategies* and presented on the *Celloids® In Practice* DVD Vol. 1 and developed the popular Celloids® Mineral Therapy Body Signs Chart. Daniel is a strong advocate of using mineral therapy as a result of tremendous clinical success and shares many great anecdotes and case studies to support your confidence in mineral therapy.

**Blackmores Professional is seeking CPE & CPD accreditation for this event. More information on the qualifying associations and points breakdown will be provided soon. 80% attendance is required.**
